PLANO INDEPENDENT SCHOOL DISTRICT SELECTS CADENCE McSHANE TO CONSTRUCT CLARK HIGH SCHOOL TWO-STORY ADDITION

*(New 22,000 S.F. Expansion to Include New Classrooms and Science Rooms
For Growing Educational Facility Serving Over 1,500 Ninth and Tenth Grade Students)*

(Dallas, Texas) – Neal L. Harper, President of Cadence McShane Construction Company, is pleased to announce that the firm has been selected by Plano Independent School District (Plano ISD) to complete the new Clark High School science and classroom addition at 523 Spring Creek Parkway in Plano, Texas. Plano ISD is comprised of 65 schools and three early education centers and serves over 53,000 students throughout southeastern Collin County, Texas.

Cadence McShane recently began construction on the two-story, 22,000 square foot addition that will allow Plano ISD to accommodate its growing student population. The new two-story addition will incorporate the masonry façade utilized on the existing two-story building to ensure a seamless design aesthetic. The interior construction assignment will include eight new classrooms that will be constructed on the first floor. Four new science laboratories will be completed on the second floor of the expansion offering student workstations, equipment storage space as well as traditional learning areas.

(MORE)

Additional safety precautions will be implemented by Cadence McShane to secure the construction areas allowing on-going construction activities for the expansion assignment while students are in class throughout the Spring session.

“Cadence McShane has successfully delivered numerous state-of-the-art educational facilities on behalf of Plano ISD. We’re pleased to be welcomed back by this growing ISD to complete the new Clark High School addition,” states Harper. “The expanded high school will provide students and staff with a modern and enhanced learning environment upon its completion.”

Corgan Associates is providing the architectural services for this educational assignment scheduled for an August 2012 completion.
